

DAILY EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.
ROSSER & MCCARTHY,
 Proprietors.

THURSDAY EVE, NOV. 22, 1888.

THE report that Mr. Cleveland didn't write his famous tariff message is no doubt like a good many others started by Republicans—untrue.

THE Republican editors of the North are busy asking: "What shall be done with the South?" Well, the best and most sensible answer is: "Mind your own affairs and let the South alone."

SEVEN thousand hands have been thrown out of employment by the shutting down of all the coal mines along the Monongahela river. The markets are supplied and the "coal trust" sells only when good prices prevail. What do they care whether labor finds employment or not?

JOHN C. NEW, of Indianapolis, a close friend of the President-elect, says that the civil service law will be rigidly enforced by General Harrison. Mr. New adds:

I do not believe that there will be any great haste in turning out the Democrats. There will be no clean sweep.

This is unpleasant news for the army of Republican office-seekers.

Now that we are defeated, whenever you hear a Democrat denouncing Mr. Cleveland, free trade, the Mills bill, Mr. Carlisle, Colonel Breckinridge, or anything else that is honestly Democratic, as cause of the defeat, you can safely set it down that man is a Democrat "for revenue only."—Lexington Observer.

Yes, and that class of Democrats are too numerous of late. The Democrats "for revenue only" are as responsible for the recent defeat as the leaders.

MR. JOHN G. WORTHINGTON, a native of Mason County, was chosen Collector of Lafayette County, Missouri, at the recent election, by a majority of 1,111. He led the rest of the Democratic ticket by several votes. The salary and perquisites attached to the office amount to about \$4,000 a year. Mr. Worthington had served in the office as Deputy, and the large vote he polled is evidence that he had won the fullest esteem and confidence of his fellow-citizens. The Mason countian will work his way to the front.

HON. CHARLES Y. WILSON, Commissioner of Agriculture and Statistics, is preparing to get exhaustive statistics from all the principal towns and cities of the State as to the present condition and the increase of manufacturing industries. He will also complete reports on the resources of all the counties and the advantageous opportunities for investments. The move is a most commendable one and the report should be made as complete as possible, especially as to the advantages for investment. Let the world know more about our resources.

Stock, Field and Farm.

Statistics at hand indicate that the total manufacture of cigarettes in this country the present year will amount to 2,200,000,000.

The official report of the Chicago Board of Trades shows the visible supply of grain, on Saturday last, as follows, in comparison with the supply of the Saturday previous: Wheat, 34,812,000, increase 471,000; corn, 8,195,000, decrease 1,056,000; oats, 7,927,000, decrease 529,000; rye, 1,561,000, increase 5,000; barley, 1,814,009, increase 189,156.

Mr. James W. Fitzgerald, of this city, sold this week to Mr. Jos. Grear, of Winton Place, Cincinnati, the following trotting-bred horses: A brown mare sired by Ericson, for \$500; a bay mare sired by Berkley's Edwin Forest, for \$450; a bay weanling sired by Alcandre, (2:26), dam by Berkley's Edwin Forest, for \$400 and a black weanling by Alcandre, dam by Addison Lambert, (2:27), for \$600.

Religious Notes.

A recent protracted meeting in the Christian Church at Winchester resulted in eleven additions.

A revival in the Baptist Church at Twenty-Second and Walnut streets, Louisville, has resulted in over seventy-eight additions.

George Gabriel, who left recently \$10,000 to Yale College and \$15,000 to Yale Divinity School, made his fortune in New Haven by repairing umbrellas.

Colonel Bob Ingersoll has two pretty daughters, who until very recently were never allowed to enter a church. Some friend took the eldest, Miss Eva, a beautiful girl of twenty or thereabouts, into the cathedral not long since, and it is said she has been converted into a very earnest Christian.—Exchange.

The Catholic World bewails the fact that masses for the dead are becoming less common than formerly.

It says: "The grand old Catholic practice, once esteemed as a consoling and pleasing duty, of causing the holy sacrifice of the mass to be offered up for the repose of the departed friends or relatives, is, we regret to say, rapidly passing into the domain of tradition."

IMAGINATION CURE.

KEY TO THE MYSTERY OF A CLASS OF OBSCURE PHENOMENA.

A Story of Voodooism in South Carolina. A Bogus Charm—Dr. Carpenter on "Expectant Attention" and its Effects—Sorcery and Witchcraft.

A South Carolina story appeared the other day, which, rightly considered, throws much light upon the interesting subject of negro superstitions, and, in fact, popular superstitions generally. A negro woman had been ill for some time, and "physicians were in vain," so at last she consulted a voodoo doctor, who prescribed application to a local sorcerer of repute. The sorcerer oracularly declared that a search of the sick woman's premises would reveal the presence of a charm by which she had been "voodooed," and gave a description of what would be found. Now the husband of the sick woman told a doctor all about the alleged charm, and the doctor for a joke fabricated a charm to answer the description, and hid it where it would be found.

So far all is plain sailing, but what appears to be regarded as extraordinary is the fact that from the moment the bogus charm was unearthed the patient began to mend, and rapidly regained her normal state of health. This is referred to as "the strangest part of the story," but really the strangest part of the story is the circumstance that at this day any one should think the matter at all mysterious, or should fail to apprehend the obvious and perfectly simple explanation of it.

A MOST POTENT ENERGY.

What cured this woman—and there is no inherent improbability in the statement that she is cured—was what cures thousands of people who have been made sick by it in the first place. It was, in a word, imagination, which is, however, psychological in its nature, among the most potent of physical agencies. The mass of authentic evidence going to show that the imagination can and commonly does influence the body in the most direct and powerful manner long since put beyond controversy the fact that body is under the control of mind to an extent which might seem scarcely credible to such as have not studied the subject.

Dr. W. B. Carpenter, in his admirable treatise on mental physiology, prefers to denominate the influence which effects organic changes in cases of disease "expectant attention." His theory is—and it is now generally accepted—that in these cases the patient believes something will happen, expects a favorable crisis, fixes his or her mind upon the affected part or the sickness generally, and thus unconsciously sets up therapeutic action. More closely analyzed it will be found that the mental process involves an exercise of faith and an act of volition. The patient anticipates a cure, believes in its possibility, and so contributes to its accomplishment.

SORCERY AND WITCHCRAFT.

Every physician knows that in serious illness it is of the first importance that the patient should be hopeful, and should will recovery. When the desire of life has from any cause ceased or great mental depression exists, a comparatively slight attack of disease may prove fatal. When the desire of life is strong rude attacks on the vitality may be repulsed. The part played by the will and the imagination in disease is always influential and often the dominant one. The old tales of sorcery and witchcraft are by no means all fiction. The things related happened in ages when people believed easily in occult and malignant powers, and the explanation of a great deal in those days must be sought here, and not in the theory of hallucination. If an ignorant negro firmly believes that he is "voodooed," he may, and often does, fall sick. There is no delusion about that. The illness is real. But it is caused by delusion none the less, for it is the direct result of faith in powers which do not exist.

The subject is one of deep interest and serious importance to medical science. More and more the wise and skillful physician must address himself to curing the body with the help of the mind. He must "administer to a mind diseased," in fact, frequently, if he wishes to restore the physical organism to health; and the simpler the mind to be dealt with the easier will it be found, as a rule, to employ it therapeutically. In the South Carolina case a bogus charm operated precisely as it was expected the real one would do.—New York Tribune.

Just yield to the law.

WATERLOO, Iowa, Nov. 22.—Five evictions of settlers from the Des Moines river lands were made on Monday and six more Tuesday. Most of the settlers realize that they must yield to the law, and some of them are ready to purchase their lands.

PAYNTER'S PLURALITY.

The Official Count Shows That He Polled 396 Votes More Than Burchett.

Complete official returns have at last been received from this Congressional district.

They show that Mr. Paynter polled 18,664 votes, Major Burchett 18,268 and Rev. George W. Young (Prohibitionist) 430.

Mr. Paynter's majority over Major Burchett is 396.

Following is the official vote:

| COUNTIES. | Paynter. | Burchett. |
|-------------------------|----------|-----------|
| Martin..... | 204 | 539 |

Rev. Geo. W. Young, Prohibitionist, polled 430 votes in the district—15 in Johnson County, 6 in Lawrence, 11 in Boyd, 1 in Greenup, 34 in Carter, 30 in Lewis, 3 in Rowan, 85 in Fleming, 12 in Mason, 122 in Nicholas, 35 in Bath, 16 in Robertson and 59 in Bracken.

The total vote polled for Congressman was 37,362—over 5,000 more than ever before cast in the district.

Major Burchett received but one vote more in his home county (Lawrence) than Harrison—the vote standing, Harrison, 1717; Burchett, 1718. But Mr. Paynter in his home county (Greenup) ran 66 ahead of Cleveland—the vote being, Cleveland, 1236; Paynter, 1302.

It is estimated that fully three-fourths of the votes cast for Young came from the Democratic ranks.

Administrator's Sale

Of the greatest stock of clothing, gents' furnishing and tailoring goods in the State. We are now invoicing the stock of Hechinger & Co. By Saturday morning the entire stock will be thrown on the market. As the sale will be imperative, the goods will be sold for what they will bring. Terms, cash only.

A. M. J. COCHRAN, Administrator.
D. HECHINGER, manager for the estate of F. Hechinger, deceased.

School Examination.

The quarterly examination of the written work of pupils in the intermediate school, taught by Mr. Josiah Wilson and Miss Ella Metcalf, will be held on Friday, November 23rd, from 1:30 to 4 o'clock p. m., at the High School building.

All parents and friends of education are earnestly requested to be present. Both teachers and pupils need encouragement, and those who wish our schools to prosper cannot afford to lose this opportunity.

J. H. KAPPE, Supt.

Railroad Bonds.

The bonds for Mason County's subscription of \$50,000 to the Maysville and Big Sandy Railroad Company have been printed and are being signed by Judge Coons and County Clerk Ball. There are one hundred of them, each of the denomination of \$500, with interest coupons attached, all payable according to the terms of the subscription. They will be turned over to the company or its representatives as soon as the road is completed and trains running to Covington.

Funny; Very, Very Funny.

"It is better to laugh than be sighing" says the old song, and such is the opinion entertained by the generality of mankind. The large audiences everywhere attracted to witness that most laughable of comedies, "Skipped by the Light of the Moon," would seem to abundantly prove. "Skipped" will be seen at the opera house on next Monday evening, and our amusement patrons are promised a rare treat in this production, of which the Pittsburgh Leader says:

The strangest, quaintest, oddest, drollest, funniest, most ludicrous characters, scenes, situations, sayings and doings are embodied in this play. Humor of the most unctuous, rollicking, jovial, side-splitting character, is its distinguishing feature. Such laughter as it evokes wherever it is produced has never been heard with in the walls of any theatre in this city.

THE Hattie Brown has been withdrawn from the Augusta and Maysville trade on account of scarcity of business. She will probably enter the Gallipolis and Charleston trade.

At a meeting of the ministers of this city Tuesday, it was decided to hold the union Thanksgiving services this year in the First Presbyterian Church. The sermon will be preached by Rev. W. S. Priest, pastor of the Christian Church.

WHAT'S the matter with the Republican editors of this section? They all want to be postmasters. Pickrell at Flemingsburg, Morris at Augusta, Newcomb at Ripley and Brother Davis here in Maysville, are all out and out candidates.

THE Carlisle Mercury says: "Miss Etta Everett, the handsome young dancing teacher of Maysville, was here Monday and Tuesday. She is a highly cultivated young lady, and belongs to one of the best families in Mason. She is being well patronized."

MASONIC supper at Helena, Thursday and Friday nights, November 22 and 23, given by the Helena Lodge. Ample arrangements have been made to provide every luxury of the season and make it a most enjoyable event. Neighboring lodges are cordially invited. The proceeds are for the benefit of the Helena Lodge. Oysters and ice cream. Admission 50 cents.

MR. MAURICE KING is meeting with encouragement in his effort to establish an electric light plant in this city. So far twenty-five firms have subscribed for 185 lights. A guarantee of 500 lights will be sufficient, we understand, to secure the construction of the plant. The rates as fixed in the agreement are \$1 a light per month where the light is used from dusk till 10 p. m., and \$1.25 when it is used till midnight.

MISS GERTRUDE OSBORNE died last night at the home of her parents, Mr. and Mrs. T. D. Osborne, near Tuckahoe. The deceased was seventeen years of age, and was an estimable young lady. She was taken ill with typhoid fever about seven weeks ago, shortly after returning from Kansas City, where she had spent the summer with relatives. The funeral will take place to-morrow at 10 a. m. at the family residence, after which the remains will be interred in the Maysville cemetery.

JUDGE TONEY, of Louisville, has rendered a decision that may prove of interest to several Maysville speculators. In 1887, Mr. John Galt, a broker, made a deal in L. and N. stock on a rising market with Hodgen & Miller, and deposited with them \$700 as margin on collaterals, but before a demand for the money and profits was made the concern broke, and Galt was referred to the assignee, who rejected his claim.

Monday Judge Toney held that the transaction between Galt and Hodgen & Miller was either a bet on the advance of stock or was a legitimate purchase. If a bet or wager, as the deals were never closed and Galt never lost, it can not be claimed Galt's claim is for money lost at gaming. If it were not a bet, as Hodgen & Miller have assigned and are unable and have failed to carry out their contract, they are liable to Galt as for money had and received to the extent of the unreturned collateral. In either case, the assignee or Commissioner erred. The Commissioner was directed to allow Galt's claim.

Six Additions.

Another large crowd was present at the M. E. Church, South, last night and listened intently to an able discourse by Rev. Mr. Morrison. His text was from Ecclesiastes, twelfth chapter and first verse: "Remember now thy Creator, in the days of thy youth, while the evil days come not, nor the years draw nigh, when thou shalt say, I have no pleasure in them." At the conclusion of the sermon six went forward and joined the church.

Services again this afternoon at 3 o'clock and to-night at 7 o'clock. Mr. Morrison will preach to the young men to-morrow, and the young ladies to-morrow night. All are invited.

Professor Fogg, the cornetist, is assisting the choir.

Brick Streets.

Lexington papers are advocating the construction of brick streets, claiming them to be the best and cheapest. The Press says:

Colonel Edmonson reports that he examined the brick streets at Galesburg, Illinois, during his recent visit to that place. He saw a street that has been in use for five years, and is in as good condition as the day it was made. These streets are free from dust and mud and the cost of repairs is practically nothing. They are being adopted in a great many of the Western cities, and, cost considered, are the best streets that can be made. They will last twenty-five or thirty years. We have urged, time and again, the importance of our City Government laying one block as a test, believing that the experiment will convince every resident in our city that brick streets are what we want. Columbus, Ohio, has made a similar experiment, and the result is a contract for thirteen miles of brick streets to be made as rapidly as possible.

SARDIS.

The oyster and ice-cream festivals at this place on Friday and Saturday nights at the "Buckler House" were liberally patronized. The ladies of Shannon and Sardis did themselves proud. Ray's Cornet Band gave some new pieces. The passage of the M. E. Church, South, was the beneficiary of this occasion, and will at once be put in good winter order. Thanks to the generous community and the working girls who got it up. We tip our beaver to Mr. Anderson in his cozy winter quarters—in prospect.

SHANNON.

Mr. John Cole was made the happy recipient of a surprise birthday dinner party on Tuesday, Nov. 13, the sixth anniversary of his birth. In the old family home around a daintily and abundantly spread table, the children sent in the edibles unbeknown to the old gentleman seated the venerable sire and progeny—children, grand children and one little great-grand child—representing four generations of manly vigor, womanly grace and sweet boyhood. The scene was a happy one. One child for every mile post on the highway of life that the grand father had passed—85 in all. It was a day of unlimited feasting and rejoicings, warm hearted greetings and glad memories. "Uncle Johnnie," as all his nephews call him, and their name is legion, is a thoroughbred Harrison man, having voted for "old Tip" in '36 and '40 and "young Tip" in '88. He smokes a cigar occasionally but never touches "the cup which cheers and inebriates."

ARREARS OF RENT

Mr. Gladstone's Amendment For Their Liquidation Lost

IN THE HOUSE OF COMMONS BY A VOTE 340 TO 246.

Speculation as to Who Will be Lord Sackville's Successor as British Minister at Washington.—Fatal Naphtha Explosion at Bristol, England.—Russia Playing 'Possum'—Not a.

LONDON, Nov. 22.—The debate on the land purchase bill was continued Tuesday night in the English commons, and Mr. Gladstone's amendment for liquidation of arrears of rent was lost by a vote of 340 to 246.

In the house of lords Tuesday night Lord Salisbury stated that negotiations still proceed with France with reference to the blockade of the East African coast. Concessions by France would practically enable the government to stop the slave trade. The objections that M. Goblet had taken were rather to the right of search theory than to its practice under the blockade. M. Goblet's promise to send a war ship for the surveillance of vessels flying the French flag ended the difficulty. The seemingly friendly conjunction of England with Germany is doubtless with a view of recovering her own lost prestige on the east coast.

Sackville's Successor.
LONDON, Nov. 22.—The government is considering the advisability of appointing a successor to Lord Sackville before President Cleveland vacates his office. A successor may possibly be appointed in December. Lord H. C. Vivian, the minister at Brussels, could have the Washington post if he wanted it, but it is believed that he does not desire it. After him the choice rests upon either Mr. Plunkett, the present envoy to Japan; Sir F. C. Lascelles, the minister at Bucharest, or Mr. Mason, the minister at Athens. It is said that Lord Sackville will go to Madrid, and that Mr. Ford, the present minister there, will be transferred to Vienna. Mr. Satow, the minister resident at Bangkok, will succeed Mr. Palgrave as minister resident at Montevideo.

Russia Scheming.
MOSCOW, Nov. 22.—The Videmosti says that the Russian government has informed a number of Bulgarian refugees that Russia has renounced all interest in Bulgaria, and that this interest dates from the time of Emperor William's visit to Vienna, Russia having abandoned all hope of German mediation. This is to be interpreted in the light of the fact that Russia at this moment is a borrower, and it is necessary to avoid peaceful intentions. It is the opossum policy.

Fatal Naphtha Explosion.
LONDON, Nov. 22.—Three hundred and ten barrels of naphtha on board the schooner United, exploded at Bristol, killing three men and causing great havoc. The windows in all the surrounding buildings were wrecked. The oil floating on the water was one mass of flame and caused the greatest alarm lest the fire should be communicated to the shipping and wharves. The efforts to check the spread of the flames were finally successful.

Lord Ogilvy's Downfall.
LONDON, Nov. 22.—Lord Ogilvy is in the common work house, herding with petty criminals. Lord Ogilvy is forty-six years of age, and when he is not in some one of the jails of the country, he resides at Piccadilly. His friends have disowned him, and they return all his letters begging for aid, unopened. Past living was the cause of Lord Ogilvy's downfall.

War Vessels Wanted.
BERLIN, Nov. 22.—An admiralty memorial will be presented to the reichstag, advising the expenditure of 117,000,000 marks in the next ten years in the construction of large men-of-war.

Death of a Dramatist.
PARIS, Nov. 22.—Omand Goudinot, dramatic author, is dead.

Foreign Notes.
The police of Lille, France, have arrested a gang of six men who several years ago stole in Brussels and Mons bonds of the value of 100,000, which they negotiated in England.

Mr. John Dillon will visit America during the coming winter. His main object in making the trip is to recover his health, but he intends also to do some work in the interest of the Irish cause.

Emperor William's speech to the reichstag on Thursday will be peaceful in tone and will especially emphasize German's excellent relations with England.

The emperor and family, accompanied by the imperial court, have arrived in Berlin for the winter season.

The Kreuz Zeitung announces that the emperor has decided to appoint another set of general officers to supersede the present incumbents, and that he has signed an order for the reorganization of the field artillery.

The Nationals are preparing to raise a question in the reichstag regarding the pastoral issued by the bishops of Cologne and Fulda, advising Catholics how to vote in recent elections for members of the landtag.

Henry George arrived Monday morning in London. The defeat of Cleveland surprised him, but he says free trade has such a firm hold of the Democracy that it must go on as the party issue.

The birthday celebration of ex-Empress Frederick was quietly observed at Windsor. The empress received scores of congratulations, and many German officials called and brought presents to her.

Female Horse Thieves at Liberty.
NEWTON, KAN., Nov. 22.—Two female horse thieves, Ida Weston and Emma Mentry, escaped from jail Monday night. Some unknown person entered the sheriff's room at Opera hotel during his absence, secured the keys, liberated the young women and returned the keys to the drawer, where they were kept. The women have been stealing horses for a year, and earned extended notoriety for their boldness.

New Bedford, Mass., Nov. 22.—About one hundred and sixty looms in Wamsutta Mill No. 1 are idle, as all of the wide loom weavers in that mill have struck work because of additional fines for black marks in weaving.

REORGANIZED.

Proceedings of the Indianapolis Knights of Labor Convention.

INDIANAPOLIS, Nov. 22.—The committee on law and constitutional revision made a recommendation, which was adopted, that the time of meeting remain the same as at present. This was the first instance on which the action was contrary to Powderly's suggestion.

Article 22 formerly provided that the general master workman could fill by appointment all vacancies in the general offices except in the executive board. This was amended so as to allow the general master workman to fill vacancies in the board also. The duties of secretary and treasurer were altered to conform to the combination of the offices into one.

In conformity with Powderly's suggestion to take the financial matters out of his hands, it was agreed that orders for money can be signed by any member of the executive board, instead of by the master workman alone; also that any member of the board can approve the weekly financial statements, the daily statements being abolished.

It was resolved that the secretary-treasurer should furnish quarterly itemized statements and statements of the standing of local assemblies to all district and National trade assemblies.

All matters of trade affairs were referred to the permanent committee on the state of order.

It was also decided that at the regular meeting of the assembly the seat of any general officer may be declared vacant by a majority vote of the assembly.

Article 21 formerly provided that persons applying for commissions as organizers must be examined by a committee. This was amended to read that the applicant may be examined by either the local, district or general master workman.

The committee reported in favor of approving that part of Powderly's address referring to the provisional committee, and announced that a number of documents had received no action because of irregularity in their presentation.

The co-operative committee moved the withdrawal of the endorsement of the order favoring the Industrial News, of Toledo. The endorsement was withdrawn. The editor of the News is Bloomer, recently expelled.

A resolution was introduced providing for setting aside \$30,000 for co-operative enterprises. The committee reported adversely to the resolution and the report of the committee was adopted.

The mileage committee reported the total number of miles traveled by delegates to the assembly to be 189,829; the greatest number of miles traveled by any one delegate, 8,314. This was by Delegate Delaware, of Belgium. At four cents per mile the total mileage of the assembly would be \$7,593.

The assembly approved all decisions of the general master workman since the last general assembly, and adjourned.

OFFICIAL RETURNS.

The Presidential Vote of Several States at the State Election.

HARRISBURG, Pa., Nov. 22.—The official returns from all the counties in the state have reached the state department. For president almost 1,000,000 votes were cast, as follows: Harrison, 529,091; Cleveland, 446,520; Fisk, 20,745; Sreater, Labor, 3,863; total, 999,224; Harrison's plurality, 79,571; Harrison's majority over all, 54,958. The vote for president in 1884 was: Blaine, 473,804; Cleveland, 392,785; St. John, Prohibition, 15,737; Butler, Labor, 17,002; Blaine's plurality, 81,019; Blaine's majority over all, 48,280.

South Carolina.
COLUMBIA, S. C., Nov. 22.—The state board of canvassers have completed their canvass of the electoral vote of South Carolina and declared the result as follows: Total vote 79,565; highest Democratic elector, 65,225; highest Republican elector, 13,740. Majority for Cleveland, 52,085. The vote for Cleveland in 1884 was 69,815, and for Blaine 21,733; majority for Cleveland, 48,112. The Republicans will contest the Second and Seventh congressional districts.

Alabama 49,113 for Cleveland.
MONTGOMERY, Ala., Nov. 22.—The vote cast for presidential electors has been counted by the governor and secretary of state. Cleveland received 117,310 votes, Harrison 57,197 and Fisk, Prohibitionist, 583.

New York.
ALBANY, N. Y., Nov. 22.—New York official returns give Harrison a plurality of 13,346. The Prohibition vote for Fisk was 39,695 against 24,999 in 1884 for St. John.

Mississippi Republicans.
JACKSON, Miss., Nov. 22.—The Republican state executive committee have decided to contest the election of the Democratic candidates for congress in the Second, Third and Seventh districts. "Bulldozing and intimidation" is the ground upon which these contests will be made. The committee is greatly elated over the success of the National ticket and will, it is understood, put out a full state ticket in 1890 as well as full county tickets in counties where they have any prospects of winning. A plan was also set on foot looking to the establishment of a Republican newspaper in this city.

Hot Times Ahead.
WHEELING, W. Va., Nov. 22.—Republicans now say that if Goff, their candidate for governor, is counted out, complications will arise which may result in the inauguration of two governors next March. Hot times are expected. Telegrams are pouring in from prominent Republican leaders of the country to hold out to the bitter end.

The Batteries Turned on Muscle Shoals.
CHATTANOOGA, Tenn., Nov. 22.—The Tennessee River Chattanooga company, organized by Connecticut capitalists, has purchased a number of boats plying in the local trade on the Tennessee river for \$100,000 cash. The facilities of the river will be doubled. This is the first step looking to the completion of the work of the removal of obstructions in the Tennessee river at Muscle Shoals by the government, which has been progressing for many years, and on which \$3,000,000 have been expended. It is expected that the canals will be opened this winter.

De Baum Indicted.
NEW YORK, Nov. 22.—The grand jury has found an indictment for forgery in the second degree against De Baum, the defaulting cashier of the National Park bank, who is in jail at Sherbrooke, Quebec, awaiting extradition on a previous indictment. The second indictment is obtained in order to lessen the chances of De Baum's escape on any technicality.

THE FIRST KISS.

If in dreams may Man be fully blest.
Is heaven a dream? Is she I clasp'd a dream?
Or stood she here even now where dewdrops gleam?
And miles of furze shine golden down the west?
I seem to clasp her still—still on my breast.
Her bosom beats; I see the blue eyes beam:
I think she kissed those lips, for now they seem
Scarce mine; so hallow'd of the lips they press'd!
Yon thickets' breath—can that be ephraim?
Those birds—can they be Morning's choristers?
Can this be Earth? Can those be banks of furze?
Like burning bushes fired of God they shine!
I seem to know them, though this body of mine
Pass'd into spirit at the touch of hers.
—Theodore Watts in The Athenaeum.

Curiosities of Plant Life.

It has been shown by Professor Schubeler, a Norwegian plant geographer, that most plants in high latitudes produce much larger and heavier seeds than in warmer regions near the equator. This effect he attributes to the prolonged influence of sunlight during the long summer days of high latitudes. The difference in seed development was very remarkable in some cases. Dwarf beans taken from Christiansia to Drontheim, less than four degrees further north, gained more than 60 per cent. in weight, and thyme from Lyons, when planted at Drontheim, showed a gain of 71 per cent. The grain of northern fields is heavier than when it grows in more southern localities, and seed from Norway planted in Russia decreased greatly in the first year. The leaves, also, of most plants are larger and more deeply colored in higher latitudes, as was first noticed by Griesbach and Martins. This is true of flowers, many of which, white in southern climates, become violet in the far north.—Boston Budget.

Groups of Cities.

One of the curiosities of New York city is the growing tendency to form a group of cities instead of one, for as one moves about the eastern streets he goes distinctly from one nationality to another. On one street, or group of blocks, one language is spoken, and on contiguous blocks, another. Mulberry street and vicinity is wholly Italian in spirit, in speech, in sports and employment. Mott street, a little further on, is the Chinese home, a hive of Celestials. There is also a Bohemia, a Poland, a Hungary, a Palestine, while Ireland is pretty much all over and everywhere. This grouping of nationalities is seen also in marked degree in Chicago, and in a lesser degree elsewhere. It is not easily avoided, but it is attended with evils and dangers. It is slow work assimilating such people into our common nationality. The Irish and Germans most easily fuse with our native Saxon stock.—Globe Democrat.

Changes in Base Ball Rules.

New York, Nov. 22.—The joint committee of the League and Association has effected several important changes in the playing rules. "Outs" on foul tips are abolished. Batted balls which strike the umpire inside the diamond will entitle the batter to his base. Four bad balls, instead of five, will give the batter his base. A proposition to place the pitcher's box fifty-five feet from the home plate failed to carry. While it might help the batter, base runners could be more closely watched by the pitcher. It was decided not to return to the high and low ball.

A Brand New Pacific Shoal.

SAN FRANCISCO, Nov. 22.—Capt. Edmundson, of the British ship Drumlaney, has reported at the United States branch hydrographic office, the discovery of a shoal thirty-five miles southwest of Farrallone Island, Sandwich, which has hitherto been unmarked on any chart. It is surmised by ship masters that this shoal may have been caused by an upheaval during the earthquake shock of Sunday. The United States cruiser Ranger, which puts to sea in a few days, will take soundings where indicated by Capt. Edmundson.

FINANCE AND COMMERCE.

Quotations for the Money, Stock, Produce and Cattle Markets for November 21.

New York.—Money 2 1/2 per cent. Exchange steady; governments quiet.

Currency sixes, 121 bid; four coupons, 128 1/2 bid; four-and-a-half, 108 1/4 bid.

The stock market opened dull, heavy and lower, and continued weak throughout the morning. Lower prices for American securities in London caused the weak opening here, and raising by the bears and selling of New York and New England kept values dull. Another factor of weakness was the announcement that \$500,000 in gold had been engaged for shipment abroad. The decline at noon ranged from 1/4 to 1/2 per cent. as compared with yesterday's figures. The market at this writing is weak.

My Poor Back!

That "poor back" is held responsible for more than its share of the sufferings of mankind. If your dog bites a man who kicks it, do you blame the dog? On the same principle the kidneys utter their protest against nervousness, impure blood, and resulting constipation. These force them to do extraordinary work in ridding the system of the poisons which are the result of effete matter retained in the blood. Then the sufferer says the back aches; the kidneys are diseased. "Not yet," but they will be unless the nerves are strengthened and removed. These are the causes of kidney troubles, and Paine's Celery Compound removes them quickly. With its tonic, purifying, and laxative effect, it also strengthens the weak kidneys, making it almost infallible in curing all diseases of the nerves and kidneys. If your hopes of cure have not been realized, try Paine's Celery Compound; it gives perfect health to all who complain of "their poor backs." Price \$1.00. SOLD BY DRUGGISTS.
